The Opportunity Radar: Sub-Category Strategic Quadrant Matrix

The Discount Destruction Curve: Profit Margin Inversion Above 20% Discount

Geographic Polarization: Margin Champions (CA, NY) vs Capital Leaks (TX, OH)

Executive Action Matrix: 4 Immediate Business Interventions

1. Cap Promotional Discounts at 20%

Discounts over 30% yield severe negative margins (-24.8% to -119.2%). Enforce automated discount approval gates.

2. Restructure Furniture Category (Tables & Bookcases)

Tables generated -$17.7K net loss on $207K revenue. Transition to made-to-order fulfillment and renegotiate freight.

3. Scale High-Margin Technology 'Crown Jewels'

Copiers deliver 37.2% margin and $55.6K profit. Bundle copiers with Accessories and Paper to maximize basket profit.

4. Re-engineer Regional Discounting in Central & Texas

Texas accounts for -$25.7K loss due to unmanaged 37% average discounting. Eliminate margin-diluting contract terms.
